

A photograph of an industrial facility, likely a power plant or refinery, at dusk. The sky is a mix of blue and orange, with wispy clouds. In the foreground, several tall, black streetlights with white lampshades are visible. The industrial structures, including three prominent smokestacks, are silhouetted against the sky. The overall scene is dimly lit, with the primary light source being the setting or rising sun.

[Enter Tier II form data](#)

[Search for Tier II reports \(PDF format\)](#)

Welcome to the Tier II reporting system of the Nebraska Department of Environment and Energy (NDEE). If you have received a letter with a userid and password and information about reporting chemical storage click the button labeled *Enter Tier II form data*. You can search for reporting Tier II facilities using the *Search for Tier II reporting facilities* button. The search facility is undergoing some work to add the on-line submitted reports to the facility search results.

The [Tier II Help](#) page has answers to most questions about the form submission system.

The screenshot shows the Nebraska Department of Environment and Energy (NDEE) website. The header features the Nebraska logo with the slogan "Good Life. Great Resources." and the department name "Department of Environment and Energy" with sub-sections "Air", "Water", "Land", and "Energy". The main content area is titled "NEBRASKA DEE TIER II SYSTEM". It includes two buttons: "Enter Tier II form data" and "Search for Tier II reports (PDF format)". A welcome message explains the reporting system and provides instructions. A "References" section lists four links: "Community Right-to-Know Act", "Nebraska Local Emergency Planning Committees (LEPC)", "Nebraska LEPC Contacts, pdf", and "Download data files". A red arrow points to the "Download data files" link. The footer contains contact information for Nebraska.gov and the Department of Environment and Energy.

Expand Drop-down Menu and Select County

The screenshot shows the "Nebraska DEE Tier 2 Data Download" page. At the top, the Nebraska Department of Environment and Energy logo is displayed with the tagline "Good Life. Great Resources." and sub-sections for "Air", "Water", "Land", and "Energy". Below the header, the page title is "Download Tier 2 Data" and "Nebraska DEE Tier 2 Data Download". A welcome message states: "Welcome to the Nebraska Tier 2 download page. Here you can download Tier 2 data by county or for the entire state. To download files for the entire state, select the '<All>' option in the drop-down list." The form includes a dropdown menu for "County or <All>", a year selector set to "2019", radio buttons for "CAMEO" (selected) and "Data file", and a "Submit" button. A red arrow points to the expanded dropdown menu, which lists the following counties: <All>, Adams, Antelope, Arthur, Banner, Blaine, Boone, Box Butte, Boyd, Brown, Buffalo, Burt, Butler, Cass, Cedar, Chase, Cherry, Cheyenne, Clay, Colfax, Cuming, Custer, Dakota, Dawes, Dawson, Deuel, Dixon, Dodge, Douglas, Dundy, Fillmore, Franklin, Frontier, and Furnas. The background of the page contains text about the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986, including links to a Safety Data Sheet, Public Records Search page, and Nebraska Content Management Portal.

Adams 2019 CAMEO® Data file Submit

What is Tier 2 data?
Any entity that stores chemicals and is required to report under the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986. In general, these chemicals or substances have a [Safety Data Sheet](#) that describes the possible human health effects of exposure to the substance.
Note: Contact information and facility ID number (use DEE program = TL3).
The download file is compressed using ZIP format. The files inside the .zip file are in [comma-separated variable \(CSV\) format](#).

Adams 2019 CAMEO® Data file| Submit

What is Tier 2 data?
Any entity that stores chemicals and is required to report them under the [Emergency Planning and Community Right-to-Know Act \(EPCRA\)](#) of 1986. In general, these chemicals or substances have a [Safety Data Sheet](#) that describes the possible human health effects of exposure to the substance.

Note: Contact information and facility information is always the most current information available and may not match the information submitted in the annual reports. For information about searching for the submitted reports see the NDEE [Public Records Search](#) page. On-line searches are available at the [Nebraska Content Management Portal](#) for reporting years 2010 and later if you know the facility ID number (use DEE Program = TL3).

File options
There are two options for file content: CAMEO® and Data file. The CAMEO® option generates a compressed file that can be imported into the [CAMEO® software suite](#) for emergency planners, air modelers, etc. Individual county files can be imported without collision so that a planner for multiple counties can have a single CAMEO® database. Files in the Data file option are slightly more compact.

The download file is compressed using the [Zip file format](#). The files inside the .zip file are in [comma-separated variable \(CSV\) format](#).
