PURPOSE

This Integrated Preparedness Plan (IPP) contains preparedness priorities and outlines steps designed to build and sustain capabilities. The plan is intended to provide direction, accountability, and coordination.

This IPP lays out Nebraska's threats, hazards, and risks along with other internal and external factors which influence the preparedness priorities for CY2024. The preparedness priorities, corresponding capabilities, and rationale are included in the IPP with multi-year calendars outlining all preparedness activities.

This IPP is designed to be a living document that will be updated and refined annually or as needed to inform the continuous improvement of our community's ability to build, sustain, and deliver capabilities.

PREPAREDNESS ACTIVITY CONSIDERATIONS

The IPP is a foundational document to guide successful preparedness activities for responding to, recovering from, and mitigating the effects of the threats, hazards, and risks deemed the most applicable to the area. The IPP establishes priorities and goals that will guide the state efforts to build, improve, and sustain capabilities across a broad range of core capabilities.

THREATS, HAZARDS, AND RISKS

Nebraska utilizes the Threat and Hazard Identification and Risk Assessment (THIRA) to identify the most likely hazards that may affect Nebraska and the communities within the state. These are by no means the only possible incidents that could occur in the state. Modifications are made to the THIRA based on a continued assessment of risks.

Planning begins with events that are expected to challenge current capabilities the most, while also taking into account those that occur often and have potentially high impacts on life and property, followed by those with more moderate probabilities or moderate impacts.

The threats, hazards, and risks identified for Nebraska as having the greatest impact or challenging capabilities the most are:

- Agricultural Disease
- Cyber Attack
- Suicide Bombing Attack
- I-80 Bridge Collapse
- Pandemic
- Tornado
- Wildfire

EXTERNAL SOURCES AND REQUIREMENTS

As a recipient of grants under the State Homeland Security Grant Program (SHSP), current requirements include four priority areas:

- Enhancing cybersecurity
- Enhancing the protection of soft target and crowded places
- Combating domestic violent extremism
- Enhancing community preparedness and resilience
- Enhancing information and intelligence sharing and analysis
- Emerging election security.

PREPAREDNESS PRIORITIES

To determine the preparedness priorities, a series of surveys were conducted consecutively. The ESFs and county emergency management officials were surveyed first. Those results were given to the Nebraska Senior Advisory Council for the council members to modify as they saw fit in a second survey. Finally, the second survey results were given to the Nebraska Governor's Homeland Security Policy Group for final input and approval.

This process identified the following ten priorities as the focus for the multi-year cycle of preparedness for CY 2024-2027.

Public Health, Healthcare, and Emergency Medical Services
Operational Communications*
Cybersecurity
Community Resilience
Planning*
Operational Coordination*
Mass Care Services
Situational Assessment
Environmental Response - Health and Safety
Intelligence and Information Sharing

*These three capabilities are designated Nebraska EMPG priorities, as agreed upon after discussions with FEMA Region VII.

Public Health, Healthcare, and Emergency Medical Services

Planning Factors

- HCCs need better state support and guidance
- ESAR-VHP Plan is being updated
- Plans need de-conflicted for resources/processes

Organization and Equipment Factors

- Volunteer EMTs are needed
- Some jurisdictions need more ALS ambulances
- BERT Team will be revitalized

Supporting Training

- Preparedness Summit
- HCC Training
- Triage Training

Supporting Exercises

- St. Francis MCI Drill/exercise
- Hamilton County Hospital exercise
- Omaha HCC Surge exercise

Operational Communications

Planning Factors

- State annex of NECP has been revised
- Other state and regional SCIP/TICP need updating

Organization and Equipment Factors

- More trained COMLs and COMTs are needed
- Need to continue build-out of NRIN and ESInet
- Continued need for data transport equipment

Supporting Training

- COMT Training
- NIFOG changes require re-training of personnel

Supporting Exercises

- Regional Communications exercise
- Regional IMT exercise
- Cooper Nuclear Station exercise
- TICP Workshop

Cybersecurity

Planning Factors

- CyberTatanka exercise held
- Cyber attacks are increasing in frequency
- Public awareness in increasing
- Statewide Cyber plan for CI is needed

Organization and Equipment Factors

- More cyber analysts have been hired by NIAC
- CISA staff becoming more involved in the PET process
- Older 911 systems are more vulnerable to failure
- Older equipment is more vulnerable to hacks/exploits

Supporting Training

- AWR-376 Cybersecurity Training

Supporting Exercises

- Various Cybersecurity TTXs

Community Resilience

Planning Factors

- Natural disasters are increasing in intensity/frequency
- There is more knowledge about EM among public, non-profits, elected officials
- A holistic statewide preparedness strategy is needed and in progress
- Multiple disability awareness trainings have been held across the state

Organization and Equipment Factors

- Nebraska Preparedness Partnership has increasing participation

Supporting Training

- CERT training being held across state
- FireCorps training held in Tri-County

Supporting Exercises

- CERT Training being held in Tri-County

Planning

Planning Factors

- State and counties use BOLDplanning for EOPs
- The State Energy Security Plan has been revised

Organization and Equipment Factors

- State and counties use BOLDplanning for EOPs

Supporting Training

- ICS 300
- ICS 400
- G191 ICS/EOC Interface

Supporting Exercises

- Cooper Nuclear Station exercise
- Western Nebraska Engine Academy

Operational Coordination

Planning Factors

- Nebraska has an ad hoc Type 3 incident management team
- Juvare/WebEOC has replaced KnowledgeCenter for incident tracking
- NEMA is implementing a resource ordering process.

Organization and Equipment Factors

- There is a need for Type 3 and 4 trained personnel
- There are two Type 3 Ops trailers in the state, none for PSC, LSC, FSC

Supporting Training

- ICS Position-Specific training
- NEMA Basic Academy

Supporting Exercises

- Cooper Nuclear Station exercise
- Western Nebraska Engine Academy

Mass Care Services

Planning Factors

- American Red Cross handles shelter operations in the state
- Juvare will allow for patient tracking and help with reunification

Organization and Equipment Factors

- Many jurisdictions lack personnel to staff shelters
- Many jurisdictions lack pre-identified shelter supplies/equipment
- NPP has increased number of organizations willing to provide mass feeding

Supporting Training

- HCC Triage Training

Supporting Exercises

- Cooper Nuclear Station exercise

Situational Assessment

Planning Factors

- Several agencies have purchased drones for situation and damage assessments
- Juvare/WebEOC has replaced KnowledgeCenter for incident tracking.

Organization and Equipment Factors

- There is a need for Situation Unit Leader trained personnel

Supporting Training

- L-964 Situation Unit Leader

Supporting Exercises

- Cooper Nuclear Station exercise
- Western Nebraska Engine Academy

Environmental Response - Health and Safety

Planning Factors

- County hazmat response emergency response plans are revised annually.
- 9 fire departments have agreements to be state emergency response teams.

Organization and Equipment Factors

- Hazmat supplies must be replenished.
- LEPCs are lacking across the state

Supporting Training

- Hazmat Training
- Hazmat 80-40 training

Supporting Exercises

- Hazmat Tabletop exercise
- Hazmat Full scale exercise

Intelligence and Information Sharing

Planning Factors

- The NIAC is the state's fusion center
- The NIAC has moved away from NFIN (Neb. Fusion Information Network)
- Juvare/WebEOC has replaced KnowledgeCenter for incident tracking

Organization and Equipment Factors

- NSP has amassed a fleet of drones and has trained drone operators.

Supporting Training

- Juvare/WebEOC training will be needed
- Cybersecurity training
- ATAP Regional Conference

Supporting Exercises

- Cybersecurity TTX

PROGRAM REPORTING

Nebraska will periodically examine capabilities for accuracy and effectiveness to plan and exercise against the threats, hazards, and risks.

Nebraska jurisdictions will follow HSEEP guidelines with regard to program reporting. This includes:

- Compiling and recording areas for improvement, lessons-learned, and potential best practices identified from exercises and real-world incidents
- Identifying which actions are needed to address areas for improvement
- Align actions to capabilities to allow for the measurement of the effect on corresponding capabilities
- Prioritize and assign SMART corrective actions to one primary stakeholder to the greatest extent possible.
