

The Northeast PET Region in cooperation with Wayne State College is pleased to offer

FEMA G-191 ICS/EOC Interface Class

Course Description:

G-191 Incident Command System/Emergency Operations Center Interface: This course reviews ICS and EOC responsibilities and functions and depends heavily on exercises and group discussions to formulate the interface. The course provides an opportunity for participants to begin developing an interface between an Incident Management Team and EOC personnel.

The goal of this professional development course, G191 ICS EOC Interface (Emergency Operations Center/Incident Command System Interface), is to enable the students to develop an effective interface between the Incident Command/Unified Command and the Emergency Operations Center by applying National Incident Management System principles.

Audience:

This course, is designed for state and local personnel responsible for developing, staffing, managing and operating an EOC and coordinating EOC operations with a field command post.

This course is designed for personnel associated with On-Scene Incident Command, EOCs and Multiagency Coordination (MAC) System entities.

The goal of the course is to provide state and local emergency management officials with the knowledge and skills they need to operate an Emergency Operating Center (EOC) and interface it with an Incident Command System (ICS) field operation. It enables the participants to begin developing an ICS/EOC interface for their community by applying Incident Command System (ICS) principles. The course reviews ICS and EOC responsibilities and functions and depends heavily on exercise and group discussions to formulate the interface.
