

Des Moines Joint Criminal-Epidemiological Investigations Workshop

Aug 10-11, 2016
8:00 am - 4:30 pm

Venue: **Camp Dodge**
7105 NW 70th Ave
Johnston, IA 50131

Training Objectives

- Understand roles, responsibilities, and authorities of law enforcement and public health during a suspicious biological incident
 - Law enforcement investigations and threat assessment
 - Public health epidemiological and medical investigations
- Identify assets and capabilities for law enforcement and public health
 - Understand what expertise and resources each discipline has to offer
- Demonstrate types of information gathered by law enforcement and public health and how sharing information can advance both investigations
 - Identify challenges to sharing information and determine potential solutions that may be adapted to meet the needs of both disciplines
- Discuss best practices for:
 - Conducting a joint threat assessment
 - Developing a joint investigations protocol
 - Conducting a joint patient interview
- Foster working relationships between law enforcement and public health
 - Identify informal contacts prior to incident so familiarity is established

Targeted Audience

- Epidemiologists, emergency preparedness managers, local and State laboratories, community health specialists, public health nurses and physicians, local and State police, task force officers, FBI, first responders/EMS, fire/hazmat, Civil Support Teams

Training Cost: FREE
