Agency Point of Contact: Marilyn Gable (402) 593.4397

Dispatchers have a great role to play during an incident, both inside and outside of the Dispatch Center. These Incident Dispatchers can assist the Incident Commander by taking on the burden of establishing reliable incident field communications, and helping to establish a workable Incident Command structure.

This two-day class is tailored primarily for local governmental agencies who wish to respond Incident Dispatchers within their own jurisdiction, or to supply mutual aid Incident Dispatchers to neighboring agencies.

This class is great for dispatchers who may work a Tactical incident primarily from the Dispatch Center, or who may deploy as an Incident Dispatcher to a Fire, Law, or EMS event.

To register, or for more information, visit the FC911 Schedule page at www.firstcontact911.com or call the FC911 Customer Care Line at (866) 613-1911.
