### Course Overview:

- Upon successfully completing this course, you will be able to complete the following tasks, which demonstrate knowledge and skills required to successfully plan for, respond to, and recover from a major debris-generating event.

### Course Objectives:

- Apply knowledge of planning for, implementing, and managing debris activities, including issues associated with:
  - Environmental and historic preservation considerations
  - Debris forecasting and estimating
  - Debris contracting
  - Debris Management Site evaluation and operation
  - Debris monitoring
  - Supplemental assistance
- Apply knowledge of FEMA eligibility and reasonable cost criteria as pertinent to presidentially declared events.
- Address debris planning and response and recovery activity issues in a Debris Management Plan Development Aid.

This course is part of the FEMA Advanced Professional Series. It is one of the elective courses for this certificate.

This class is sponsored by East Central PET Region and instructed by The Blue Cell, LLC.
