

## FY 2008 (October 1, 2007—September 30, 2008) NIMS Compliance Objectives and Metrics for Local Governments

### Introduction

Homeland Security Presidential Directive 5 (HSPD-5) *Management of Domestic Incidents* called for the establishment of a single, comprehensive national incident management system. As a result, the U.S. Department of Homeland Security released the National Incident Management System (NIMS) in March 2004. NIMS provides a systematic, proactive approach guiding departments and agencies at all levels of government, the private sector, and nongovernmental organizations to work seamlessly to prepare for, prevent, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life, property, and harm to the environment. This consistency provides the foundation for implementation of the NIMS for all incidents, ranging from daily occurrences to incidents requiring a coordinated Federal response. The NIMS document, as revised in 2007, reflects contributions from stakeholders and lessons learned during recent incidents.

States and territories, Tribal Nations and local governments play an important role in ensuring effective NIMS implementation; not only must they implement NIMS within their jurisdictions, but also ensure that the systems and processes are in place to communicate and support NIMS compliance at all levels of government. In some instances, when Tribal Nations or local government may not have the resources to implement all NIMS elements on their own, States and territories should support their efforts by encouraging them to cooperate with other localities in their regions and pool their resources to implement NIMS.

The long-term goal of NIMS is to provide a consistent framework for all aspects of emergency management and incident response. This framework should be sustainable, flexible, and scalable to meet changing incident needs and allow for integration of other resources from various partners through mutual aid agreements and/or assistance agreements.

### FYs 2005-2007 NIMS Compliance Objectives

On September 8, 2004, a letter to the Nation's Governors detailed the initial steps that States, territories, Tribal Nations and local governments needed to take to implement NIMS. The activities, now objectives, outlined in that letter provide the foundation for current NIMS compliance. Since that time, FEMA's Incident Management Systems Integration (IMSI) Division (formerly NIMS Integration Center) continues to expand on this foundation and add additional objectives—each developed to enhance the way incidents are managed at all levels of government.

Prior to Fiscal Year (FY) 2007, IMSI required jurisdictions to self-certify their NIMS compliance. Beginning in FY 2007, NIMS compliance was determined by State, territory, Tribal Nation and local government responses to performance-based "metrics". IMSI developed these compliance metrics from previously-required implementation objectives specified in the *FY 2006 NIMS Implementation Matrix for States and Territories* and the *FY 2006 NIMS Implementation Matrix for Tribal Governments and Local Jurisdictions*. Additionally, the NIMS Compliance Assistance Support Tool (NIMSCAST) has been expanded to incorporate these metrics as well as provide stakeholders with a way to collect and report data relating to NIMS implementation and compliance. IMSI will analyze this data to help shape the future of its NIMS compliance program.

### NIMS Compliance in FY 2008 and beyond

As we move into FY 2008, State, territory, Tribal Nations, and local governments will address specific compliance objectives, which will outline necessary actions to be accomplished in FY 2008. As with FY 2007 implementation objectives, each objective will have corresponding compliance metrics that address expected achievements for FY 2008 and out years.

The FY 2008 NIMS compliance metrics will clearly outline year-end expectations, while out-year metrics will provide actions that can be implemented in FY 2008 or addressed in the future, as appropriate. The FY 2009 compliance objective and metrics will allow stakeholders to work within their current level of NIMS implementation and compliance and move ahead in implementation objectives.

In FY 2008, there are 38 NIMS compliance objectives. Twenty-four (24) of these objectives are pre-existing objectives with which local governments must continue to comply. Only one additional compliance objective under *Resource Management*, #21, is new to States and territories, Tribal Nations, and local governments in this fiscal year. One objective under *Preparedness: Training* was previously issued in FY 2007 and is a compliance objective requiring Tribal Nation compliance by the end of FY 2009. IMSI identifies an additional 11 FY 2009 objectives for which States and Territories, Tribal Nation, and Local government can plan. Projected FY 2009 compliance objective include:

- Complete *ICS-400 Advanced ICS* training or equivalent by appropriate personnel (as identified in the Five-Year NIMS Training Plan, February 2008).
- Complete Emergency Management Framework Course—Awareness Training (as identified in the *Five-Year NIMS Training Plan*, February 2008)
- Include preparedness organizations and elected and appointed officials in the development of emergency operations plans (EOPs).
- Plan for special needs populations in the development of EOPs (to include, but not limited to, individuals with limited English language proficiency; individuals with disabilities; children; the aged, etc.).
- Include NGOs and the private sector in an all-hazards exercise program, when appropriate.
- Promote the integration of Incident Command, Multiagency Coordination System, and Public Information into appropriate exercises and evaluate against associated target capabilities (refer to HSEEP Volume III and the Exercise Evaluation Guides).
- Institute procedures and protocols for operational and information security during an incident/planned event.
- Institute multidisciplinary and/or multi-jurisdictional procedures and protocols for standardization of data collection and analysis to utilize or share information during an incident/planned event.
- Develop procedures and protocols for communications (to include voice, data, access to geospatial information, Internet/Web use, and data encryption), where applicable, to utilize or share information during an incident/planned event.
- Institute policies, plans, procedures and protocols to prevent spontaneous deployment of resources/personnel and/or responding to a request that bypassed official resource coordination processes (i.e., resources requested through improper channels).
- Institute mechanisms to deploy, track, recover, demobilize, and to provide reimbursement for resources utilized during response and recovery.
- Utilize access control measures during an incident, as appropriate

Although released in FY 2008, local governments are not required to achieve these projected compliance objectives before the end of FY 2009. Additionally, the 12 FY 2009 compliance objectives may not

represent the total number of compliance objectives designed with which States and territories will have to comply in FY 2009.

Below is a breakdown of the FY 2008 NIMS compliance objectives described above. It illustrates the number of NIMS compliance objectives required of States and Territories, Tribal Nations, and Local Governments:

Objectives	States and Territories	Tribal Nations	Local Governments
Required in FY 2008	26	25	24
<b>New</b> and Required in FY 2008	1	1	1
Required (Projected) in FY 2009	12	12	12
<b>Total</b>	<b>39</b>	<b>38</b>	<b>37</b>

Beginning on pages 10-13, States and Territories can see the compliance objectives that have been issued for FYs 2005-2008 and their respective metrics. Full compliance metrics are available on pages 14-31.

NIMS ADOPTION

**Compliance Objective 1: Adopt NIMS by all local government departments/agencies; as well as promote and encourage NIMS adoption by associations, utilities, nongovernmental organizations (NGOs) and private sector emergency management and incident response organizations.**

1.1 Has the local government formally adopted, for Fiscal Year (FY) 2008, the National Incident Management System as its all-hazards incident management system?

Yes  No

What legal authority was used to formally adopt NIMS: [Check all that apply.]

- Executive Order
- Proclamation
- Resolution
- Other legal authority

When was NIMS formally adopted? [ ]

1.2 Does the formal adoption of NIMS expire?

Yes  No

When? [ ]

Is there is a process for renewing/maintaining the formal adoption of NIMS?

Yes  No

If yes, how? [ ]

1.3 Does the local government promote NIMS adoption by associations, utilities, private sector, and nongovernmental organizations?

Yes  No

**Compliance Objective 2: Designate and maintain a single point of contact within government to serve as principle coordinator for NIMS implementation jurisdiction-wide (to include principal coordinator for NIMS implementation within each Department/Agency).**

2.1 Has local government designated a single point of contact with the authority to serve as the principal coordinator for overall jurisdiction-wide NIMS implementation?

Yes

No

Identify the individual. (Include: Name, Title, Email Address, Phone Number, and Mailing Address)

**Compliance Objective 15: Incorporate corrective actions into preparedness and response plans and procedures.**

15.1 After conducting and/or participating in an all-hazards exercise program, does the local government incorporate corrective actions into preparedness and response plans and procedures?

[ ] Yes [ ] No

COMMUNICATIONS AND INFORMATION MANAGEMENT

**Compliance Objective 16: Apply common and consistent terminology as used in NIMS, including the establishment of plain language (clear text) communications standards.**

16.1 Does the local government apply the following communication standards:

	Yes	No
Plain Language (Clear Text)	[ ]	[ ]
Common and Consistent Terminology	[ ]	[ ]

**Compliance Requirement 17: Utilize systems, tools, and processes to present consistent and accurate information (e.g., common operating picture) during an incident/planned event.**

17.1 Does the local government utilize the following to present consistent and accurate information during an incident/planned event?

	Yes	No
Systems	[ ]	[ ]
Tools	[ ]	[ ]
Processes	[ ]	[ ]

RESOURCE MANAGEMENT

Compliance Objective 18: Inventory response assets to conform to NIMS National Resource Typing Definitions, as defined by FEMA’s Incident Management Systems Integration Division.

18.1 Has the local government inventoried its emergency management/incident response assets to conform to NIMS National Resource Typing Definitions?

[ ] Yes [ ] No

18.2 Has the local government typed its response assets to conform to NIMS National Resource Typing Definitions?

[ ] Yes [ ] No

18.3 Does the local government have a process to determine availability of emergency management/incidents response assets in accordance with “Tier One” NIMS National Resource Typing Definitions?

[ ] Yes [ ] No

Compliance Objective 19: Utilize local government response asset inventory for intrastate and interstate mutual aid requests [such as Emergency Management Assistance Compact (EMAC)], training, exercises, and incidents/planned events.

19.1 Does the local government use the response asset inventory for:

Table with 3 columns: Item, Yes, No. Rows: All-Hazards Exercise Program, Interstate Mutual Aid and Assistance, Training, Incidents/Planned Events.

Compliance Objective 20: Ensure that equipment, communications and data systems acquired through local acquisition programs are interoperable.

20.1 Local government acquisition programs require the following to be interoperable throughout the jurisdiction when purchased:

Table with 3 columns: Item, Yes, No. Rows: Equipment, Communications, Data Systems.

20.2 If the local government is providing funds for equipment, communications and data systems does it ensure local acquisition programs require the following to be interoperable when purchased:

Table with 3 columns: Item, Yes, No. Rows: Equipment, Communications, Data Systems.

New in FY 2008 Compliance Objective 21: Initiate development of a jurisdiction-wide system to credential emergency management/response personnel to ensure proper authorization and access to an incident, including those involving mutual aid agreements and/or assistance agreements.

21.1 Has the local government initiated the development of a jurisdiction-wide system to credential emergency management/response personnel?

[ ] Yes [ ] No

If yes, is the credentialing system based upon an existing State-wide system?

[ ] Yes [ ] No

If yes, what disciplines does the credential system encompass?

Animal Health/ Rescue	[ ]
Emergency Management	[ ]
EMS	[ ]
Fire	[ ]
Hazardous Materials	[ ]
Incident Management	[ ]
Law Enforcement/ Public Safety	[ ]
Medical/Hospital	[ ]
Public Health	[ ]
Public Works	[ ]
Other	[ ]

If yes, does the local government credentialing conform to current NIMS national credentialing criteria and guidance? [Note: Credentialing should include the means for validating the identity, qualification, and deployment authorization that allows for the granting of access to an incident, including preparedness-related exercises and training activities.]

Yes [ ] No [ ]

COMMAND AND MANAGEMENT

Compliance Objective 22: Manage all incidents/ planned events in accordance with Incident Command System (ICS) organizational structures, doctrine and procedures. ICS implementation must include the consistent application of Incident Action Planning (IAP) and common communications plans, as appropriate.

22.1 Does the local government implement ICS for all-hazards emergency management and incident response/planned events?

[ ] Yes, for all incidents/planned events. [ ] No

22.2 Does ICS implementation include the following concepts?

Table with 3 columns: Concept, Yes, No. Rows include Common Terminology, Modular Organization, Management by Objectives, Incident Action Planning, Manageable Span of Control, Incident Facilities and Locations, Comprehensive Resource Management, Integrated Communications, Establishment and Transfer of Command, Chain of Command and Unity of Command, Unified Command, Accountability, Dispatch/Deployment, Information and Intelligence Management.

22.3 Does the local government implement Incident Action Plans (IAPs) during incidents/planned events, as appropriate?

[ ] Yes [ ] No

22.4 Does the local government implement common communication plans during incidents/planned events, as appropriate?

[ ] Yes [ ] No

**Compliance Activity 23: Coordinate and support emergency management and incident response activities through the development and use of integrated Multiagency Coordination System (MACS) [i.e., develop and maintain connectivity between local Incident Command Posts (ICP), local 911 Centers, local Emergency Operations Centers (EOCs), the State/Territorial EOC, and Regional and Federal EOCs and NRF organizational elements].**

23.1 Does the local government use integrated MACS, where appropriate, during incidents/planned events?

Yes  No

Which of the following primary functions is coordinated by a local government MACS: [Check all that apply.]

- Situation assessment
- Critical resource acquisition and allocation
- Other State/Territory, Tribal Nation, Local, and Federal MACS
- Coordination with elected and appointed officials
- Coordination of summary information
- Incident priority determination
- Other functions

**Compliance Objective 24: Institutionalize, within the framework of ICS, Public Information, [e.g., Joint Information System (JIS) and a Joint Information Center (JIC)] during an incident/planned event.**

24.1 Do emergency plans, within the framework of ICS, include processes and procedures for Public Information during incidents/planned events as appropriate?

Yes  No

Can Public Information establish a JIS during incidents/planned events, as appropriate?

Yes  No

Can Public Information establish a JIC during incidents/planned events, as appropriate?

Yes  No

Can Public Information identify individuals to serve as Public Information Officers (PIOs) during an incident/planned event, as appropriate?

Yes  No

**Compliance Objective 25: Ensure that Public Information procedures and processes can gather, verify, coordinate, and disseminate information during an incident/planned event.**

25.1 During an incident/planned event can the Public Information system:

	Yes	No
Gather information	[ ]	[ ]
Verify information	[ ]	[ ]
Coordinate information	[ ]	[ ]
Disseminate information	[ ]	[ ]

**Best Practices:**

In addition to the compliance requirements stemming from doctrines and guidance documents related to NIMS, there are several other recommended actions to assist stakeholders in effectively implementing NIMS. Using the outlined methodologies and actions is strongly suggested. These methodologies are based on the sharing of best practices and provide suggestions for ways in which stakeholders can carry out these critical aspects of implementation.
